

International Post Graduate Program in Paediatrics

International Post Graduate Program in Paediatrics

International Post Graduate Program in Paediatrics

Introduction

Elevate your expertise in child health with OC Academy's intensive International Post Graduate Program in Paediatrics. Designed for practising physicians seeking to advance their careers, this comprehensive program combines a 9-month online curriculum with a 3-month clinical experience. It provides a robust foundation and advanced knowledge in paediatric assessment, diagnosis, management, and ethical considerations, facilitating the development of critical skills essential for delivering superior patient care and improving outcomes in paediatric medicine.

The program has three distinct components, each offering a unique and valuable perspective on paediatric care, as explained below:

1. Certification Course in Paediatrics

This foundational course covers various aspects of paediatrics, from assessment, examination, and investigation to management, complications, and ethical considerations. Developed in the UK by the NHS England and eIntegrity, it features expert-authored e-learning materials, ensuring evidence-based knowledge for modern clinical practice.

Key Topics:

- Cardiovascular Examination
- Respiratory Examination
- Type 1 and Type 2 Diabetes Mellitus
- Diabetic Ketoacidosis
- Symptom Management
- Ethics, Sexuality and Spirituality

2. Advanced Interactive Program

The program features a rigorous and evidence-based curriculum designed to provide in-depth training across a spectrum of paediatric conditions. Professionals will acquire advanced knowledge and refine their clinical reasoning skills through a blend of didactic lectures, case-based discussions, and interactive learning modules.

Key Topics:

- Growth and Development – Normal and Abnormal Growth
- Neonatology – Normal Newborn and Common Neonatal Issues
- Respiratory System – Pneumonia and Asthma
- Gastrointestinal System – Acute Watery Diarrhoea
- Infectious Diseases – Exanthematous Fevers
- Vaccinology – Common Vaccines

The curriculum is accredited by CPD, ensuring the highest quality education and global recognition in paediatrics.

3. Clinical Training

3-month observership, providing professionals with hands-on experience in leading hospitals and specialised paediatric centres across India. Learn from experts and gain exposure to diverse clinical scenarios in paediatrics.
