

Certification Course in **BREAST RADIOLOGY**

(Course Duration - 1 month)

The Royal College
of Radiologists

Introduction

The Certification Course in Breast Radiology is a 1-month online course, featuring e-learning material co-authored by **E-integrity**, **NHS UK**, and the **Royal College of Radiologists** for doctors seeking to build expertise in Breast Radiology. This program, with 4 modules and 4 chapters, covers mammography, ultrasound, MRI, and more, exploring breast lumps, imaging protocols, carcinoma, phyllodes tumour, fibroadenoma, nipple diseases, implant assessments, post-cancer imaging, and male breast diseases, offering a comprehensive approach to breast radiology.

About OC Academy

OC Academy is India's leading online upskilling platform for doctors. In collaboration with 35+ global institutes and 20+ hospitals, OC Academy curates industry-specific short term and long term courses, fostering a community for medical upskilling. Our online programs, designed to meet the evolving demands of the medical field, prioritise quality, accessibility and flexibility. OC Academy envisions a future where healthcare professionals in India have unparalleled access to transformative education, driving excellence in patient care.

Certificate

Upon completing the programme, you will receive a “certificate of completion”.

Teaching Methodology

Experience dynamic learning with content modules within the e-learning materials curated by expert doctors from internationally acclaimed institutions. Exploring concurrent topics and chapters at one's own pace, with guidance from the latest insights of industry professionals, ensures a comprehensive understanding of the specialty.

- **Interactive training:** The teaching methodology prioritises interactivity, with reading material authored by practising clinicians featuring content to enhance learning.
- **Global relevance for clinical trainees:** Designed to benefit clinical trainees worldwide, this program utilises scenario-based learning to improve skills in breast radiology.
- **Practical scenario-based learning:** Participants engage in virtual ward simulations, practising history reviews, examinations, management planning, and outcome assessments for improving skills in breast radiology.
- **Convenient online accessibility:** This certification course allows studying from anywhere, facilitating quality e-learning material co-authored by prestigious institutions like the Royal College and NHS UK.

COURSE CURRICULUM

Certification Course in Breast Radiology

- Module 1 | Introduction and Anatomy
- Module 2 | Breast Conditions and Assessment
- Module 3 | Breast Intervention and Cancer
- Module 4 | Mammography

Curriculum Overview

Module 1 | Introduction and Anatomy

Module 1 provides a comprehensive introduction to breast imaging, covering topics such as breast lumps in women and the anatomy, physiology, and imaging techniques relevant to breast health assessment.

Module 2 | Breast Conditions and Assessment

Module 2 covers a comprehensive overview of various breast conditions and assessments, including breast pain, microcalcification assessment, screening methods, nipple disorders, radiological assessments for women with implants, treated breast considerations, male breast diseases, and parenchymal deformities in the breast.

Module 3 | Breast Intervention and Cancer

Module 3 focuses on breast intervention and cancer, covering aspects such as staging of breast cancer and metastatic disease.

Module 4 | Mammography

Module 4 covers advanced mammography techniques including Digital Breast Tomosynthesis (DBT) and Contrast-enhanced Spectral Mammography (CESM), emphasising their role in enhancing breast cancer detection through structured reporting templates.
