

Certification Course in **GYNAECOLOGY - OBSTETRICS RADIOLOGY**

(Course Duration - 1 month)

Introduction

The Certification Course in Gynaecology-Obstetrics Radiology is a 1-month online course, featuring e-learning material co-authored by **E-integrity**, **NHS UK**, and the **Royal College of Radiologists** for doctors seeking to build expertise in Gynaecology- Obstetrics Radiology. This program, with 7 modules and 7 chapters, covers ultrasound and MRI intricacies, covering uterine anatomy, vaginal MRI features, and ultrasound techniques, with a focus on reproductive health complexities and advancements in medical imaging, offering a comprehensive approach to gynaecology- obstetrics radiology.

About OC Academy

OC Academy is India's leading online upskilling platform for doctors. In collaboration with 35+ global institutes and 20+ hospitals, OC Academy curates industry-specific short term and long term courses, fostering a community for medical upskilling. Our online programs, designed to meet the evolving demands of the medical field, prioritise quality, accessibility and flexibility. OC Academy envisions a future where healthcare professionals in India have unparalleled access to transformative education, driving excellence in patient care.

Certificate

Upon completing the programme, you will receive a “certificate of completion”.

Teaching Methodology

Experience dynamic learning with content modules within the e-learning materials curated by expert doctors from internationally acclaimed institutions. Exploring concurrent topics and chapters at one's own pace, with guidance from the latest insights of industry professionals, ensures a comprehensive understanding of the specialty.

- **Interactive training:** The teaching methodology prioritises interactivity, with reading material authored by practising clinicians featuring content to enhance learning.
- **Global relevance for clinical trainees:** Designed to benefit clinical trainees worldwide, this program utilises scenario-based learning to improve skills in gynaecology- obstetrics radiology.
- **Practical scenario-based learning:** Participants engage in virtual ward simulations, practising history reviews, examinations, management planning, and outcome assessments for improving skills in gynaecology- obstetrics radiology.
- **Convenient online accessibility:** This certification course allows studying from anywhere, facilitating quality e-learning material co-authored by prestigious institutions like the Royal College and NHS UK.

COURSE CURRICULUM

Certification Course in Gynaecology - Obstetrics Radiology

Module 1 | Gynaecological Anatomy

Module 2 | Techniques

Module 3 | Vagina and Uterus

Module 4 | Fertility and Pregnancy

Module 5 | Common Clinical Problems

Module 6 | Ovary and Adnexa

Module 7 | Gynaecological Cancer

Curriculum Overview

Module 1 | Gynaecological Anatomy

Module 1 covers normal gynaecological anatomy, detailing the structures of the uterus, vagina, and ovaries.

Module 2 | Techniques

Module 2 covers basic and non-ultrasound techniques in gynaecological imaging, focusing on procedures like HyCoSy and hysterosonography.

Module 3 | Vagina and Uterus

Module 3 covers the diagnosis and imaging of vaginal and uterine endometrial abnormalities, emphasising comprehensive understanding and diagnostic techniques.

Module 4 | Fertility and Pregnancy

Module 4 covers the essential aspects of fertility and early pregnancy, emphasising ultrasound's role in assessing both fertility and early trimester complications.

Module 5 | Common Clinical Problems

Module 5 covers common clinical problems including abnormal uterine bleeding, intrauterine contraceptive devices, endometriosis, pelvic inflammatory disease, and non-gynaecological pathology in the pelvis.

Module 6 | Ovary and Adnexa

Module 6 focuses on various aspects including staging cervical and endometrial cancer, ovarian cysts causing pelvic pain, ultrasound diagnosis of ovarian masses, MRI for indeterminate adrenal masses, and imaging for ovarian cancer diagnosis.

Module 7 | Gynaecological Cancer

Module 7 focuses on the role of imaging in follow-up and addresses complications arising from treatment.
